Background

I have been trading part time since 2006 and started trading full time in 2008. My partner Reza has a background in Mathematics, Software Programming and financial trading.

We met with Reza a couple of years ago and discovered our interest in trading and our desire to change the trading Arena.

Versatile Forex Profits Trade Alert Software is one of the major projects this year. We have a vision to design a trading system that truly works for every kind of trader.

- For those with a day job and prefer to trade part time
- For those who like to see rapid movement and close their trades by close of business
- For those who like to capture big trades and let them run for days
- For those who like to retain control of their trading and get involved in every trade entry and exit
- For those who like to experiment and try out new ideas in their trading
- For those who just want to make money

Versatile Forex Profits Trade Alert Software is here to meet every trader's unique trading situation as you'll discover below.
